

DECENTLAB

SMART WATER MONITORING FOR LoRaWAN®

Reliable Measurements for Water Level and Water Quality

Simple Installation

- Place & Measure
- Battery Operation
(2 C alkaline batteries)
- Wireless Data Transmission
via LoRaWAN

Easy Monitoring

- Alerting
- Visualisation of Data in Real Time

Applications

- Flood & Level Monitoring
- Groundwater & Wells Monitoring
- Borehole & Dam Monitoring
- Smart Agriculture & Aquaculture
- Urban Water Management
- Wastewater Management
- Industrial Applications
- Snow Level Monitoring
- Environmental Monitoring

LoRaWAN® SENSORS FOR WATER MANAGEMENT

WATER LEVEL

DL-MBX | Ultrasonic Distance / Level Sensor

DL-PR21 | Pressure / Level & Temperature Sensor with G1/4" Pipe Thread

DL-LID | Laser Distance / Level Sensor

DL-PR26 | Pressure / Liquid Level & Temperature Sensor

DL-PR36 | High-Precision Pressure / Liquid Level & Temperature Sensor

DL-PR36CTD | High-Precision Pressure / Level, Temperature & EC Sensor

WATER QUALITY

DL-CTD10 | Pressure / Level, Temperature & EC Sensor

DL-NTU | Optical Turbidity & Temperature Sensor

DL-OPTOD | Optical Dissolved Oxygen & Temperature Sensor

DL-DS18 | Temperature Sensor

DL-PHEHT | PH, ORP & Temperature Sensor

DL-MES5 | Large Range Optical Turbidity & Temperature Sensor
